

# ELECTRIC VEHICLE (EV) CHARGING POINT INFORMATION SHEET

Dynamic Earth has six EV charging points, located on the left-hand side of the car park, just after the entry barrier.

Each charging bay is clearly marked with a **'Priority EV Charging Point.'**

Please see our help to use guide below:

## Download and Register

- Users are required to download and register on the Project EV Pro App, on their device to activate a charge.
- The Project EV Pro App can be found on the App Store, or by scanning the QR code on the sign at each charging point.
- Visitor Wi-Fi is available in the area of the EV bays.

## Charging your EV

- Once registered, the App will take you through the logistics of starting and ending a session.
- The App will not tell you how long your car will take to charge, the guest will require the App for their vehicle to view this information.
- RFID cards can be used on the charging points but these must be obtained and registered, in advance of their visit.

## EV and Parking Costs

EV charging costs apply to all guests using the EV charging points, they are;

- When a charge is authorised by the EV user, a £10 deposit is taken, which is refunded when the charging session ends.
- £0.50 per kWh
- £0.05 Idle Fee per minute (30-minute idle grace period)
- An Idle Fee is applied when the EV is fully charged but remains connected to the charging point.
